

# KENYON DENOUNCES SHIPPING BOARD

## IOWA SENATOR SAYS AFFAIRS OF BOARD WERE EXTRAVAGANT

**Makes Hot Attack on the Salaries Paid to Officers, Some of Which, According to His Statement, Ran Into Five Figures—Senate Passes Deficiency Bill After Stormy Session**

(By The Associated Press)  
WASHINGTON, June 3.—After hearing denunciation of the shipping board for its mismanagement of the merchant marine by Senator Kenyon, Republican, Iowa, and others, the senate today approved a \$75,000,000 deficiency appropriation for it and a few hours later passed the deficiency appropriation carrying a total of \$156,000,000 including the shipboard item.

The senate added an amendment offered by Senator Lenroot, Republican, Wisconsin, directing the board to sell all wooden ships by October 1, next.

The board in its management of the merchant marine was described by Senator Kenyon as extravagant, wasteful and "reeking with graft."

Other senators also denounced it, but Senator Edge, Republican, New Jersey, and others, while saying there had been extravagance and waste, argued that the new board soon to be appointed should not be penalized thru lack of funds for mistakes which were "water over the dam."

## WOULD HAVE LAW TO PROTECT BUYERS OF TEXTILE PRODUCTS

**Should be Law Securing the Honesty of Woolen Goods**

(By The Associated Press)  
Washington, June 3.—Manufacturers who buy raw wool have legally created standard grades to protect them, but consumers who buy their textiles have nothing in law to assure quality and content, Gray Silver, representing the farm bureau federation today told a senate committee considering the truth in fabric bill. Its provisions which would require branding of clothes with the actual percentages of content would help both growers and consumers, he said.

Charles W. Holman of the National Milk Producers Federation seconded the argument made by Mr. Silver.

"Unless there is law assuring the honesty of goods," he said, "the honest producer is subject to price competition of the inferior goods, and finally forced to meet it by using the shoddy in his own products and selling it as all wool."

Dr. Genevieve Weaver, of Davenport, Iowa, appearing for women's clubs, said women got tired of buying woolen underwear for their children only to find after laundering it a few times that the garments are shoddy, and that the filling has all washed out leaving nothing but cotton mesh.

## POISON GAS NEWEST WEAPON AGAINST CRIME

(By The Associated Press)  
CHICAGO, June 3.—Poison gas is the newest weapon in the war against crime according to Prof. Lee Lewis who today demonstrated a device for the protection of bank vaults at Northwestern university. The device shown by Professor Lewis who was with the chemical war service during the war depends for its effectiveness on the breaking of three glass tubes concealed behind the combination lock, by any violent attack upon the vault door. The liquid contained by the tubes produced a dense smoke intermixed with noxious irritating vapor which caused violent coughing, sneezing and lachrymation.

"There is no doubt that in the future poison gas will find increasing use as a powerful deterrent to the criminal class in society. For the protection of bank vaults it should prove very useful in country banks. Gas masks do not effectually protect against the mixture as smoke passes thru the ordinary canister. Moreover, these vapors burn and irritate the skin."

**CHILDREN'S DAY PROGRAM POSTPONED**  
The Children's Day program at the Woodson Christian church is postponed until Sunday evening, June 12.

## SENATOR REED IN BROADSIDE ON GRAIN BILL

**Protests Delegating Congressional Authority to Officials**

(By The Associated Press)  
WASHINGTON, June 3.—Discussion of the Capper-Tincher bill to regulate grain exchanges before the senate agriculture committee today developed into a snarl on the subject of delegation of congressional authority to administrative officials. It culminated in the declaration of Senator Reed, Democrat, Missouri, that he could not differentiate between government by an individual, board or commission and the government of William II of Prussia.

He delivered a broadside against provisions of the grain bill, the packer control measure and others which contemplate reposing broad powers to make rules and regulations with department heads or commissions. It was nothing short of Socialistic, he said.

Editor, Not Lawyer  
"Take the present secretary of agriculture and I mean no criticism to him personally," said Mr. Reed, "he's an editor, not a lawyer, has never held a judgeship and probably knows no more about big business than any one of a hundred thousand farmers. You give him this power, then he hires an army of unemployed, who haven't even made a success of their own business to draft these regulations and then signs them."

Sensor Norbeck, Republican, North Dakota, took issue with Mr. Reed, declaring that in delegating authority the congress merely was attempting to give flexibility to its laws.

The committee heard testimony today against the bill by B. L. Hargis, president of the Kansas City board of trade, who contended that the proposed regulatory powers were dangerous. He said that changes proposed in the marketing system would make price fluctuations greater in scope and therefore a menace to producers.

Seasonal forecasts on grain production issued by the department of agriculture were criticized by Hargis as causing violent upsets in prices.

## CHICAGO COUNCIL REFUSES TO ACCEPT BLAME FOR PAYMENT

**Blame Administrative Officials for Payment of Big Fees**

(By The Associated Press)  
CHICAGO, June 3.—The city council today adopted a resolution declaring that the blame for the payment of \$2,742,000 in expert fees rested with the administrative officials of Chicago, as shown by the official records of the city.

The resolution stated that more than \$1,000,000 in expert fees were paid to two building experts and more than \$1,700,000 in fees to three real estate experts.

A circular sent to voters placing responsibility for the payment of these fees on the council was branded as "untrustworthy and unreliable" and in direct opposition to the truth.

## BERGDOLL CASE RESTS WITH CANADA

LONDON, June 3.—Whether Great Britain will intervene in the case of Grover C. Bergdoll, American draft evader and supporter of the United States if it attempts to extradite him from Germany rests with the Canadian government whose passport laws Bergdoll violated.

It is explained that while Canada might extradite Bergdoll to Canadian soil there are no apparent grounds on which he could be turned over to the United States.

The British government is keenly interested in the case and is anxious to aid the United States in bringing Bergdoll to justice, it was said.

## STANDARD OIL INCREASES STOCK

Chicago, June 3.—Stockholders of the Standard Oil Company of Indiana today authorized an increase of the capital stock from \$100,000,000 to \$140,000,000.

The increase is partly to finance the purchase of the Midwest Oil & Refining Company. The remaining stock will be offered to employees under the cooperative ownership plan announced some time ago.

## Pueblo, Colorado Is Under Water

DENVER, Colo., June 4.—Pueblo is under water early today (Saturday) in the most disastrous flood in the city's history according to a special despatch to the Rocky Mountain News. The damage, according to the despatch, will reach \$1,000,000. Loss of life has been reported.

Denver, Colo., June 3.—Four persons dead, two missing, property damage amounting into the hundreds of thousands; Pueblo partially inundated and cut off from telephone communication since 9:20 o'clock, Marshall Lake dam threatening to break and wipe out the town of Marshall; several towns in the northeastern part of the state flooded and without lights and power—this was the situation tonight as the result of cloud bursts in eastern and central Colorado.

A telephone message from Marshall, Colo., before midnight tonight said the Marshall Lake dam, impounding an immense body of water was holding but irrigation officials feared it would break at any minute. The lake a private irrigation project covers 800 acres of land and is 63 feet deep. The two hundred residents of the mining town about 60 miles from Denver are ready to flee. Breaking of the dam would wipe out the town.

Pueblo, Colo., June 3.—Water was over the Union avenue bridge of the Arkansas river early tonight and flooding business houses in the downtown district. Flood calls are being sounded at five minute intervals on the city siren.

Eighteen families in the bottom land of the west part of the city have been rescued by the police.

The Arkansas river was running over the protecting levee at two points near the state insane asylum.

Loveland, Colo., June 3.—Water is pouring thru a break four feet square in the south dike of Lake Loveland, on the south edge of this city and virtually the entire population is siding in some way in an effort to check the leak in the dike.

The Big Thompson river which flows east out of Estes Park washed out the Colorado and Southern bridge one mile south of here.

A general alarm was sounded late tonight with volunteer workers piling rocks and bags of cement in the hole in the dike in the lake dam. With basements of home and business houses filling with water residents in the lower part of the city moved to higher ground.

## DENZEL CHESTER MURDER CASE IS NEARING AN END

**Testimony Completed and Judge Gives Instructions to Jury**

(By The Associated Press)  
KANSAS CITY, June 3.—Testimony in the trial of Denzel Chester, charged with the murder of Miss Florence Barton, was completed today and Judge Latshaw began reading his instructions to the jury under which it may acquit the defendant or it may return a verdict of first or second degree murder. Flight and attempted escape, raise a presumption of guilt, the judge said. Arguments will begin tomorrow.

The closing testimony was marked by a sensational turn when William Barton, a cousin of the dead girl, testified that Fred Roberts, also charged with murder, told him he knew who had killed Miss Barton but would tell him later. Roberts also said, Barton testified, that he was not with the man who did the shooting.

The state has contended that Roberts was with Chester when the latter shot at Miss Barton and Howard Winter, her fiancée, on a country road.

Roberts' statement, Barton testified, was made to him in St. Joseph, Mo., while Roberts was being held on a charge of implication in the robbery of an interurban station.

Roberts said, according to Barton, that he was afraid to tell and that if he did, "Chester will play crazy and I'll get life."

## DEPUTY SHERIFF IS FATALLY SHOT

CHICAGO, June 3.—Deputy Sheriff Otto Tischner was shot and probably fatally wounded tonight when he went to Justice Park to investigate a report that men wearing special deputy sheriff stars were intimidating residents on signing pledges supporting the coming election.

With three companions, Tischner had entered a saloon and begun to question the occupants when one drew a pistol and demanded that they get out. Tischner attempted to draw his pistol but was shot thru the lung before he could remove it from his pocket. The man who fired the shot escaped.

## COMPANY PAID \$57,000 ABOVE CONTRACT PRICE

**Witness Tells of Repudiation of Many Contracts**

(By The Associated Press)  
CHICAGO, June 3.—How one company paid \$57,000 above the contract price on a new building because of material dealers' alleged violation of contracts was told the Dailey joint legislative commission investigating building conditions in Chicago by a witness whose identity was shielded.

The Producers' Material company, this witness said repudiated a contract for crushed stone at \$1.15 a cubic yard and obtained a new one at \$1.85 by which the company was overcharged \$20,950.

The Illinois Brick company and the Wisconsin Lime and Cement company also was named by the witness as repudiating contracts and obtaining new ones at higher prices. Police protection was asked for witnesses who said that they had been threatened with violence for testifying before the commission.

## ELABORATE PLANS FOR MIMIC WARFARE

NEW YORK, June 3.—Instructions to the fleet for the joint army and navy battle operations against surrendered German war craft and the obsolete battleship Iowa off the Virginia capes from June 21 to July 20, as made public today, reveal an elaborate program of mimic warfare. The former German craft will be brought to the firing point and anchored in position about 50 miles east of Cape Charles light vessel in not less than 50 fathoms of water.

Opening operations against the U-17 will be launched by seven divisions of the naval air service with 163 pound bombs.

If this submarine has not been sunk by naval aircraft army airplanes will attack with 250 pound bombs. Should the aircraft fail to sink the other submarines a division of destroyers will attack by gun fire.

The submarines will be anchored in column formation 300 yards apart. The destroyers, one for each submarine, will then approach from a distance of five thousand yards and attack opening fire at not less than three thousand yards. Each destroyer will be allowed eleven rounds per gun. At the conclusion of the gun fire any submarine afloat will be sunk by depth charges by a wrecking party from the North Dakota.

## MUST NOT MIX UP ARMY REDUCTION WITH NAVAL PLAN

**Borah Says Attempt to Broaden the Plan Would Kill It**

(By The Associated Press)  
WASHINGTON, June 3.—House proposals to broaden the Borah naval disarmament in the naval appropriation bill would "kill" the naval disarmament movement, Senator Borah, Republican, Idaho declared tonight in a statement attacking the suggestion of house leaders.

"If we are sincerely going forward with the question of disarmament," said Senator Borah, "and sincerely desirous of curtailing expenditures and reducing the chances of war, we will start where we can make progress and that is with the naval powers now in actual naval building competition."

It is inexpedient at this time to negotiate for reduction of armies, Senator Borah declared.

"At the meeting of the Geneva assembly," he said, "France stated plainly that she would not consider disarmament at this time and she refused to even vote for the principle. She gave as her reason that her situation was such that she could not take such action now. Six other nations followed her. To include naval disarmament therefore is to kill the matter outright."

"With reference to naval disarmament the situation is different. The three nations which now are actually engaged in a naval race are the United States, Great Britain and Japan. The French navy is a third class navy, so recognized, and they are doing practically nothing toward bringing it up to date. The Italian navy is in like condition."

Sensor Borah said he favored general disarmament but believed that naval disarmament now was the only practicable matter for consideration.

## WOMEN APPLAUD DRAW REPRIMAND FROM THE COURT

**Judge Righelmer Threatens to Send Women to County Jail**

(By The Associated Press)  
CHICAGO, June 3.—Applause for a sharp rebuke by Attorney John M. Harlan to Judge Frank Righelmer brought sharp reprimand to 52 women in the court room today during a hearing of a protest against the county election board's order that only those who had registered may vote at next Monday's judicial election.

Judge Righelmer sitting as an election commissioner, was hearing a protest on the order led by Miss Kellogg Fairbank. When attorneys rose to argue against the order, Judge Righelmer warned them he wanted no political speeches. The judge had previously made a statement on the situation.

When Attorney Harlan arose to speak the judge warned him against daunting into politics to which Attorney Harlan replied that the judge was the only present making political speeches. The woman applicant threatened them and threatened to send them to the county jail for contempt of court.

Attorney Francis Walker said Judge Righelmer was sitting as an election commissioner and had no power to send anyone to jail.

The quarterly cash dividend is payable July 15 to stockholders of record June 24. The stock dividend is payable July 25. Stock outstanding totals \$92,000,000.

No further reduction in the dividend rate is probable, the directors' statement said.

## MEXICAN EDITOR PRAISES AMERICAN PRESS

New Orleans, La., June 3.—The American newspaper is the herald of all progress and advancement, Adolfo V. Vivas, Mexican editor, told the convention of the Louisiana Retail Clothiers' and Furnishers' Association today.

Constant reading of the newspaper will furnish an enviable education, he said.

## LOCAL AUTHORITIES AGAIN IN CONTROL OF AFFAIRS IN TULSA

**All Troops Except Those Resident in the City Are Withdrawn—Most of the Martial Law Rules Are Still in Force—Negro Officer Tells the Story of How the Riot Started**

(By The Associated Press)  
TULSA, Okla., June 3.—Tulsa tonight again was under control of its regularly constituted city and county authorities, the reins of government having been turned back at 5 P. M., when Adjutant General Barrett, in command since Wednesday morning, under a proclamation of martial law, issued a recall order and out of town troops entrained.

The 325 national guardsmen resident in Tulsa were maintained on active duty, and for the time being Tulsa will remain under semi-military control to prevent a recurrence of the rioting of last Tuesday night and Wednesday morning.

Withdrawal of the troops was over the protest of the chamber of commerce but was in accordance with advices of the special board of public welfare of seven civic leaders, which has assumed control of relief and rehabilitation.

The board's work went forward rapidly much being done toward alleviating immediate suffering of thousands of destitute negroes here and for their welfare.

Tulsa tonight remained quiet. Residents said they noted an unusually serene atmosphere.

Will Not Relax Rules  
Back under normal control but very little of the severe rules of martial law will be relaxed immediately according to a proclamation by Mayor Evans. He instructed that passes bearing his signature will be necessary for persons entering the devastated area and that persons on the streets after 11 o'clock will be subject to detention unless they can give valid reasons for being abroad.

Street cleaning forces were busy today mopping up the burned-over district, much of the debris being pulled away. Street Commissioner Steiner said that only two of 100 negroes he offered employment at \$3.50 a day accepted. Upon that report and others a "work or be arrested" order was issued.

Agitation by a few irresponsible negroes was blamed for the part of the negroes in the race war in sentiments by several prominent negroes and Police Commissioner Adkinson.

Negro Radicals at Work  
According to the commissioner the police were aware that negro radicals had been at work for some time.

"We have known about agitation in the negro sections and Chief Gustafson and myself headed off what promised to develop into a serious situation a short time ago," he said. "We told a group of negroes of the better class that we placed the entire responsibility on them and held them responsible for whatever should happen."

As the race war excitement flickered out, the fear which kept negro leaders silent was dispelled and they told the negro story. Barney Cleaver, a veteran negro peace officer, who enjoys the confidence of both whites and blacks, named what he termed a "negro peddler" as one of the principal leaders in the disturbance about the court house Tuesday night which precipitated the shooting and burning.

O. W. Gurley, a wealthy negro, told of what happened in the negro section and declared the belligerent negroes established headquarters at the plant of a negro newspaper early Tuesday evening where they assembled large quantities of guns and ammunition. Negro runners were sent out to rally reinforcements, Gurley said.

Threatened to Shoot Officer  
Cleaver said he warned negroes then that they would cause the negro section to be burned if they did not disperse and disarm.

"They only laughed and threatened to shoot me," he said. Cleaver, wealthy before the riots, now has only the clothes he wears.

Gurley said on the night of the riots he went to the newspaper office about 9 o'clock and found activities far advanced.

"When I saw what was going on I tried to talk them out of the vent what they believed was a idea of arming themselves to pre-empted lynching but they were in such a dangerous mood that I almost got in trouble."

"There were not more than 40 or 50 men in the crowd of armed negroes who marched up to the court house," Gurley said. "They were nearly all doers, or jake tinkers, with no police records. There were a few more intelligent ones in the lead."

"The real leader of the gang was a tall negro who came back from France with exaggerated ideas concerning equality."

"He and his brother ran two or three stores in the colored quarter."

## PORTER PEACE RESOLUTION IS REPORTED OUT

**Straight Party Lines Develop When Vote is Finally Taken**

(By The Associated Press)  
WASHINGTON, June 3.—By a straight party vote, the house foreign affairs committee reported today the Porter peace resolution, providing for termination of the state of war between the United States and Germany and Austria-Hungary. Democratic members opposed it and announced that their vote would be shifted to the floor of the house.

Republican Leader Mondell informed the house that the resolution would be called up next Thursday. Backed by the full Republican strength of the committee leaders declared it would be passed probably that day. On the proposal to report the Porter measure in place of the Knox resolution repealing the declaration of war the Republican members voted solidly in the affirmative. The Democrats voted "present."

Representative Flood of Virginia, ranking Democrat, was instructed by members to file a minority report.

## ROAD CONDITIONS

Springfield, Ill., June 3.—Motorists will encounter both dusty and muddy roads this week end, according to the weekly road bulletin issued this morning by Meteorologist Clarence J. Root.

"There have been heavy local rains over much of the territory around Springfield, except to the southeast, south and southwest where the roads are good but dusty," the bulletin says. "The Jacksonville road and the Quincy route west of Beardstown are in good condition."

"Elsewhere the roads are muddy over much of their distances, but with the expected fair weather they will dry rapidly. Best route to Decatur is by way of Rochester and Mechanicsburg. For St. Louis go to Litchfield then via Big Four rail to Alt then pavement to St. Louis. For route to Chicago is via Decatur and Danville. The Pekin is still closed."

The Jacksonville men who at the state hospital yesterday saw six ex-servicemen taking vocational training came away with a more definite idea than ever before of what war meant to some of the soldiers. It is not only those who sleep in soldiers' graves that made the "supreme sacrifice".

**AN UNUSUAL ESTATE.**  
A St. Louis man died recently and the appraisement of his estate showed about twice the expected value and so beneficiaries are to receive double the amount they were anticipating. The case is noteworthy because unusual. Generally the wealth of a man is

over-estimated and the inventory in his estate shows a shrinkage instead of expansion.

**THE VALUE OF VISITORS.**  
If more than 9,000 visitors come each year to Jacksonville State hospital the three state institutions here must bring still other thousands. There is financial benefit to Jacksonville in all of these visitations and the suggestion is also worth while that there is a fine opportunity thru these visitors for Jacksonville to advertise itself.

Possibly the newly organized Chamber of Commerce can work out some plan for giving visitors a favorable idea of Jacksonville.

**THE VALUE OF HANDICAPS.**  
Judge Jenkins told graduates of the School for the Blind that the recognition of limitations is one of the important things in life. This is true because most men who recognize their limitations are spurred on to other activities which may overcome their recognized handicaps.

It is in this way that a handicapped very often becomes the stepping stone to success. It is another version of the saying that "He who knows that he does not know is on the way toward understanding."

**THE MEMORIAL BUILDING PROPOSAL.**  
The people of Morgan county are asked to vote on Monday on the proposition of erecting a memorial building in Morgan county in honor of the soldiers and sailors of the county. It is proposed to erect a building for community purposes and from an all-county standpoint. The suggestion is for a building to cost \$250,000, the funds to be provided for thru the sale of bonds and refunded in such sums that the entire issue will be paid off in 20 years.

By favorable action on this proposal the men and women of Morgan county will definitely voice their approval of the services of those men who at great personal sacrifice entered upon service in the army or navy. True, they represented the call of duty but they represented at the front the larger number at home. Their services were of a kind to justify definite recognition.

The memorial building proposed will fill a great community need and while honoring the soldiers and sailors "living or dead" will at the same time be a definite community asset.

**THE HOME VIEW OF MR. CHIPPERFIELD.**  
The indications definitely encourage the belief that Claude E. Chipperfield of Canton will be given a goodly majority in Morgan county as candidate for the supreme court bench. Those who have met Mr. Chipperfield or have looked up his record are fully persuaded as to his fitness for the office. The candidate has been a practicing attorney in Canton for a period of years. The Register of that city recently in commenting upon his candidacy, said:

"Claude E. Chipperfield of Canton, an attorney of years of experience and with large and diversified practice in this state,

and whose record as a man and a lawyer is an enviable one, has been nominated by the Republicans of the Fourth Judicial district as candidate for the high office of justice of the supreme court of Illinois.

"Mr. Chipperfield's sterling qualities and eminent fitness for this office are too well known to his friends and neighbors of Fulton county to require comment, and his admirable character and well known sympathy for those in trouble and difficulty have made him especially esteemed by an ever-increasing host of well wishers in this community.

"What he has gained in a business way has been gained by his own efforts. He worked his way through school and college and has mounted high in his profession through his own unaided efforts, maintaining always a standard of honesty, industry and fair dealing that have won him friends and respect everywhere."

**PASSAVANT NURSES GRADUATION JUNE 16**

For four years she was state inspector of nurses training schools, and during that time she did the pioneer work for the registration of nurses. She has also been a member of the state board of examiners for nurses.

This will be her second appearance before a Jacksonville audience, she made the address at the graduation in 1912.

Those who will graduate this year are: Misses Uretha Hutchinson of Jacksonville, Ada Howell of Roodhouse, Florence Buchanan of Perry, Margaret Irving of Jacksonville, and Marie Weder of Winchester.

**SERVICE STAR LEGION HAD REGULAR MEETING**  
Largely Attended Meeting Held Friday Afternoon at Home of Mrs. R. W. Dodswoth on South East Street.

The regular monthly meeting of the Service Star Legion was held at 2:30 o'clock Friday afternoon at the home of Mrs. R. W. Dodswoth, 614 South East Street. There was a large attendance and a most enthusiastic meeting which was opened by the salute to the flag and the singing of "The Star Spangled Banner," by members.

A brief program was given, including a vocal duet by Misses Thelma and Glendora Cannon, with Miss Elsie Cannon at the piano. This was followed by a reading, "Seventeen," (Booth Tarkington) by Miss Dorothy Dunavan.

At the business session Mrs. L. P. Allcott, the president, gave several interesting reports. She reported that flowers were sent by the Legion (as is the custom) to the grave of Thomas Flynn who was buried on Decoration day. The report of the sale of poppies by the Legion indicated that \$425 was realized, the money to be given to the American Legion to be used in memorial work in marking soldiers' graves. Members of the Service Star Legion and their helpers are naturally gratified at the showing made.

A picnic supper for ex-soldiers and sailors is soon to be given at State hospital and this plan was discussed with enthusiasm. The plan for decorating soldiers' graves on Decoration day in 1922 was also discussed and approved. A market is to be given soon by the young wives who are members of the Legion.

Mrs. Allcott read an interesting letter from Mrs. Bentley of Chicago, national chairman, urging the local organization to aid in forming new chapters in nearby towns. Mrs. Allcott then gave a very fine address, full of patriotism and Service Star legion spirit. She so well voiced the sentiment of all present that a rising vote of thanks was given her.

The meeting then adjourned and a time was spent socially, when the hostess served delicious refreshments.

Frances E. M. Brown, for the Publicity Committee.

**O'CONNELL MURDER CASE SET FOR TRIAL**  
Case From Brown County Will Be Called Next Tuesday—Docket Entries.

The trial of Timothy O'Connell for the murder of Elwood Leut has been set for Tuesday, June 7. This case which came to Morgan county from Brown county, was tried a year ago and resulted in a jury disagreement. In the former trial Mr. O'Connell, who is now a resident of Jacksonville, was defended by W. H. Deltrich of Beardstown, Messrs. Hartzell and Kavanaugh of Carthage. The prosecution at this time will be in the hands of O. T. Briggs, State's Attorney of Brown county. John S. Wahl of Quincy and State's Attorney Carl E. Robinson of this county.

In the previous trial Mr. Vandevanter of Mt. Sterling was in charge of the prosecution as he was serving as state's attorney at that time.

Judge Jones yesterday made the following docket entries in the circuit court:

**Common Law.**

## SEVEN GRADUATES AT SCHOOL FOR BLIND

Address Made at Commencement Exercises by Judge C. H. Jenkins—Diplomas Presented by Supt. Woolston.

Seven young people were granted diplomas at the School for the Blind commencement exercises Friday night. An audience which more than filled the chapel gathered for the interesting literary-musical program

which had been arranged. The address of the occasion was delivered by Judge C. H. Jenkins of Springfield, director of the department of public welfare. The diplomas were awarded by Supt. R. W. Woolston. Those granted diplomas were Mary M. Ford, Jacksonville; Edwin R. Hamilton, Roseville; Edward T. Leonard, Lake Villa; Leota M. Lohr, Ipava; Fernando Oldham, McLeansboro; Ethel Van Meter, Fancy Prairie; Floyd Wilson, La Harpe.

Judge Jenkins made a brief but inspirational address. He said that the graduates of the school had certain limitations but that most people are limited in their abilities in one way or another. "What we need is to recognize our limitations," the speaker said, "for then we can go forward and overcome difficulties and approach the nearer to our ideals. There is an Arabian saying that 'All sunshine makes the desert.' So it often happens that misfortunes and troubles really are blessings in disguise.

"The boyhood days of Abraham Lincoln were surrounded with limitations yet he overcame them and accomplished such great things that today people from all parts of the world visit

his tomb to reverence his memory. The manager of Jenny Lind, world famous songster, arranged with him that she should pass thru a time of pain and sorrow because he felt that afterward she would sing with finer feeling, and so it was.

Remember Fundamentals "As graduates of this institution the time has come for you to stop and think where you are and what you hope to be. Then with a fine determination to overcome those things that obstruct, move forward and upward along life's pathway. We as a people are making progress in many ways, but the great need of the hour is recognition of the worth of fundamental and basic things. So determine that we shall have an America of the kind that our forefathers had in mind when the Declaration of Independence was penned, and then place your feet firmly upon the immovable rock of faith, the omnipotence and righteousness of God. Adherence to truth and right principles will bring their full reward.

After two musical numbers the diplomas were presented by Supt. Woolston, who complimented the graduates upon the completion of their 12 years of work. He said that each person is the master of his own fortune, so is the maker of his own mind. There can come no mental growth or development unless there is the co-operation of the will with intellect. All life is an education and young men and young women of today, as of all days, must learn to think and act." The program of the evening in addition to the addresses was as follows:

## GREENE COUNTY APPLE CROP TO BE FAILURE

Manager of Smith Apple Orchard Ships Empty Barrels to Other Points—High School Seniors Annual Appears—Other White Hall News.

White Hall, June 2.—J. W. Ryder, manager of the Smith apple orchards, has begun the loading of empty apple barrels at Drake station for shipment to other points where there will be an apple crop. This is pretty conclusive proof of the practical total failure of the crop in this section. There are evidences of some apples, but they appear so irregular as to render it impractical to attempt to harvest them.

The Knights of Pythias will decorate the graves of deceased members in White Hall cemetery Sunday afternoon, commencing at 2 o'clock, the speaker being John J. Reeve of Jacksonville. The exercises will be held at the grave of W. E. Day, and music will be furnished by the White Hall band. There are nearly forty graves to be decorated, and the local lodge always makes this an impressive observance.

"The Echo," issued by the senior class of the White Hall high school, has made its appearance this week for 1921. It contains 96 pages of high grade printing and reading, being dedicated to Miss Bernice Huff, "our class advisor, who thru three important years of high school life has proven herself invaluable as a teacher, counsellor and friend. To her we, the Senior Class, with deep appreciation dedicate this the first volume of 'The Echo.' The editorial staff is composed of the following: Editor in chief, Ruth Garrison; literary editor, Frank E. Ross; athletics, Hugh Greer; art, Russell McClure; organization, Irene Spangberg; advertising, Paul Bauer, Russell Knox; circulation, Arthur Billings, Helen Teters photos, Ernest Edwards; business manager, Russell Jones; tumor, Marie Hanks, Kathryn Hansberger.

Every department of the high school activity is covered, including the community high school and the Parent-Teachers' association, and the cartoons by Russell McClure are especially worthy of mention. There are numerous contributions by members of the class, some of which have real literary merit, notably the work of Paul Rimby.

This line of the C. & A. has become an exceptionally busy place of traffic with the heavy tonnage of screenings from the Standard Oil mine at Carlinville that is being hauled to Kansas City via Godfrey. These shipments are made in the new cars just put in service by the Standard Oil Co. This is a new source of freight tonnage for the C. & A. that has all the appearances of being continuous.

Sykes & Fanning have a number of copies of the Northern Greene county roll of honor left over from Decoration day, and those desiring a copy should make application at either Roodhouse or White Hall before the supply is exhausted. Concerning this production the following comment has been received by R. B. Pearce, the author, from B. O. Roodhouse, editor of "The Optimist" for the Ell Bridge Co. at Jacksonville: "Only one who has had experience can appreciate how much effort it really took to get all this information for the Roll of Honor, but it is a valuable little history, and should be preserved in Greene county records for all future time."

Mr. and Mrs. J. D. Simonton left Wednesday for St. Louis and points in Southern Illinois, she having sold her millinery business to Mrs. Philip Campbell. They will travel for a time while Mr. Simonton seeks a business location.

### DISTRICT MEETING OF W. H. M. S. IN VIRDEN

Annual Meeting of Jacksonville District Held in Virden June 1 and 2—Next Meeting to be Held in Jacksonville.

The Woman's Home Missionary Society of the M. E. church, Jacksonville district, held its annual meeting in Virden June 1 and 2 with a representative attendance from various parts of the district. The conference president, Mrs. Luttenberger of Leroy, and the conference corresponding secretary, Mrs. Hart of Hoopeston, were present and gave interesting talks, as did also Mrs. Hestwood of Cunningham Home and Dr. E. L. Pletcher of Jacksonville. The ladies of Virden M. E. church served a banquet at 5:30, and this was followed by a very interesting evening session, at which time Miss Caries Swartz of Washington, D. C. gave a most inspiring and timely address on "Alaska, from the Missionary Angle." Conditions were revealed that were appalling, and heart appealing, and the speaker held the interest of her audience from first to last by her polished and dramatic manner. As Miss Swartz has met Alaskan conditions face to face, and has also traveled widely abroad, as well as at home this, as well as her other talks during the convention were greatly enjoyed and appreciated by those who were so fortunate as to hear her.

At the morning session the following officers for the ensuing year were elected:

President—Mrs. Hairgrove, of Virden.  
First vice president—Mrs. Virgil Robertson, of Virginia.  
Second vice president—Mrs. C. C. Shoemaker, of Virden.

### INSTALL NEW ICE CREAM PLANT

Mullenix & Hamilton have just installed a new ice cream freezer at their confectionery plant on East State street. It is a combination machine which cuts the ice and freezes the cream at the same time. The same electric motive power is used for each operation. Ten gallons of cream are frozen in 17 minutes with this new freezer which is manufactured by the Liquid Carbonic Company of St. Louis. The ice cream is fine—take it from one who knows—'cause the reporter had a spoonful right out of the freezer yesterday.

### HAVE NOVEL WINDOW

"When you look in the heart of a rose"—you see a pretty girl—sometimes. If you look in Johnson's Music Store window you will probably experience the above sensation. John McCormack sings the song, "When You Look in the Heart of a Rose," for the Victor machines, and a huge red rose has been made and put in the Johnson window to illustrate it. Oh, we almost forgot to add that there is a charming girl in the center of the rose.

### OBITUARY.

Samuel, son of William J. and Rhoda J. Latham was born near Yatesville, Oct. 25, 1856 and passed from life Tuesday morning May 31, 1921 at his home in Tallula, having attained the age of 64 years, 7 mos and 6 days.

Practically all of his life, with the exception of a short period in the west, was spent in Morgan county until two years ago when he located in Tallula. In his early manhood he united with the Primitive Baptist church at Fort Branch, Ind., under the pastorate of Elder Strickland. On Nov. 1, 1877 he was united in marriage to Miss Lillian C. Willett, who survives him. To their union 13 children were born, 3 of whom died in infancy. Those surviving are: George of Kokomo, Ind., Luther of Ashland, Mrs. Lee Harding of Champaign, William of E. St. Louis, Samuel of Portland, Oregon, Mrs. Henry Isaac of Prentice, Mrs. Theo. Britton of Parsons, Kans., Lloyd, Beattie and Chester at home. Besides his immediate family he leaves two sisters and two brothers. Mrs. Martin Robinson of Prentice and Mrs. Charles Virgin of Jacksonville. John of Kansas and William of Oakland, Calif. One brother Steven preceded him in death. He also leaves nine grandchildren and a number of other near relatives and friends. Mr. Latham was of a generous but unassuming nature, kind and sociable in the daily routine of life. For 16 years he was connected with public service work, always performing his duties to the best of his ability.

His illness which was of a particularly distressing character was of about three years duration. He constantly displayed inspiring fortitude in his affliction, and that at times his sufferings were most intense he endured all with patient submission, rendering every assistance possible in caring for himself. He will be greatly missed, especially in the home where he received every available attention. He was conscious until the last, he feebly raised his arms to his loved ones, then calmly passed into the great unknown. The family have the sympathy of a large circle of friends, who offer consolation in the fact, that he has entered into that rest, which only could bring relief.

Funeral services for Samuel C. Latham were held at the Yatesville Baptist church Thursday afternoon at 2 o'clock conducted by Rev. L. L. Harris of DuQuoin, Ill., a large number of relatives and friends gathered to pay a last tribute or respect to the deceased. Appropriate songs were sung by members of the congregation. The minister spoke in a way which conveyed the most comfort to those bereaved. The beautiful floral tributes were tenderly arranged by Mrs. Arthur Bloomfield and Mrs. Von McClure. He was laid to rest in the Yatesville cemetery, the bearers being Thomas Hanning, Steven Bingham, Henry Vance, John Henderson, Emily Hewitt and Clarence Cluck.

### ART EXHIBIT OPENS AT I. W. C.

Beautiful Showing from School of Fine Arts at I. W. C. Opens Yesterday.

The annual exhibit of the School of Fine Arts of the Illinois Woman's College opened yesterday morning at the Art Studio in Music Hall. The pictures on display show the fine character of the work done this year under the direction of Miss Nellie Knopf, head of the School of Fine Arts. The studies show the strong psychological work and the emphasis placed on the mental side of art work today. "Art today is design and abstraction rather than reality," Miss Knopf said yesterday. The first year Design class has some fine work on display. The psychology and logical sequence of abstract design is shown in the interesting designs which the students have worked out. The instructor gives a problem and the student works it out according to her individual ideas. The result is a large number of very pleasing and interesting pictures.

The Still Life designs in flat colors are charming in technique and color schemes. Some very lovely work has also been done in oil and charcoal. The sketch and free hand drawing classes have turned out some pleasing pictures and some very attractive posters have been made. The Art department did all the art work for the Illinois Women's school annual and these designs are on display. Some sketches of scenes on the campus are lovely and most true to life. The pictorial composition pictures show fine relations of light and shade and artistic grouping and balance. There are between sixty and seventy students in the Art department this year. Miss Mildred Goodwine will receive a certificate in the School of Fine Arts.

## DEMPSEY WILL BEGIN TRAINING AGAIN TODAY

Champion Anxious to Swing Back Into Training Routine—Partners Ready for Grueling Work.

Atlantic City, N. J., June 3.—After a four day layoff Jack Dempsey will resume training at his open air arena tomorrow with the prospects that he will continue to work daily without further interruption until he finishes conditioning himself for the defense of the world's heavyweight championship against Georges Carpentier, July 2.

Dempsey is eager to swing back into the training grind and his sparring partners are prepared for a gruelling session tomorrow. Martin Burke, the New Orleans heavyweight, will work with the champion tomorrow for the first time since Dempsey began training.

Jack Renault and Larry Williams, the other heavyweights in camp, also will be available tomorrow.

Dempsey spent the day sunning himself on his front porch and playing cards. In the afternoon he could not resist the temptation to play a game of baseball against a team of theatrical stars and promised Manager Kearns that he would run bases in a less reckless manner than he did yesterday. Kearns consented.

The champion enjoyed the afternoon's game more than anybody. He played third base and romped around like a small boy.

## Daily Market Report

## SHARP SETBACKS IN PRICE OF WHEAT

CHICAGO, June 3.—Sharp  
setbacks in the price of wheat  
took place today after the market  
had touched new high record  
quotations for the July delivery.  
Slowing down of export business  
counted as a bearish factor and  
soon too did ideal weather con-  
ditions. The finish was heavy at  
34 to 3 1/2¢ net decline with July  
2 1/2¢, \$1.27 1/2¢; corn lost 1 1/2¢ to  
2¢ and oats 3/4¢ to 1¢. In provi-  
sions the outcome varied from  
2 1/2¢ decline to 5¢ advance.

Wheat values began to break  
as soon as the opening figures  
were posted showing that the  
season's higher price record had  
again been outdone. In this con-  
nection it was said that large of-  
ferings to Europe overnight had  
not been accepted and that Italy  
would need only 40,000,000 bu-  
shels of wheat this season as  
against 110,000,000 bushels im-  
ported last season.

Bears also made much of as-  
sertions that, pending cool  
weather, would greatly  
facilitate the proper filling on  
wheat and that crop estimates  
were likely to be revised upward.

Gossip was current too that  
assessors' returns showed a much  
larger acreage than was indicat-  
ed by the government. Some  
eastern buying on the declines  
caused one decided rally but the  
effect was more than counter-  
balanced later as a result of ar-  
rangements to start trading in  
the September delivery here  
without further delay.

Corn and oats were depressed  
by a revival of large receipts of  
corn.

The arrivals of corn were esti-  
mated to total 700 cars.

Provisions averaged a little  
lower in sympathy with grain  
and hogs.

Word has been received here of the recent deaths of Col. and Mrs. C. C. Pierce in France, both of whom are known to a number of local people. Col. Pierce, who was a lieutenant colonel in the army, with his wife sailed for France early in April. Mrs. Pierce became ill on the voyage and she was taken to a hospital upon landing and passed away on April 23. Col. Pierce passed away on May 4. Markille and S. G. Smith sang, "Sometime We'll Understand." The scripture lesson and prayer by Rev. W. W. Theobald were followed by another selection by the quartet, "One By One the Loved Ones Leave Us."  
Rev. Mr. Theobald then read an obituary sketch of the deceased and delivered an impressive funeral discourse. The minister paid a high tribute to the life of the deceased, summing up his life in one word, "faithfulness."

Following the services at the church the cortege moved to the Winchester cemetery, where the G. A. R. ritual was carried out. The many beautiful floral tributes were cared for by Miss Barbara Owings and Miss Mary Prewitt.

The pallbearers were W. H. Kinison, Guy Paul, Robert Woodall, Warren North, Frank Masoa and Joseph Roark.

**Commencement Program.**  
In the tailoring, dress making and furniture making departments the products mean a large financial saving to the state, but the greatest value is the benefit from the work to the patients themselves. The two or three lines of work mentioned are only a few out of many. Rug weaving, basketry, bead work, shoe making, carpentry, painting, shoe repairing, these and others are just as important lines of activity as those already mentioned.  
The visitors found special interest in the federal training department, where 60 ex-service men are now receiving training in drafting, typewriting, automobile repair work or other lines for which they are adapted. Such splendid progress is being made in this center that it is the belief of those in charge that 75 per cent of the men be restored to the normal activities of life.  
Altogether the expedition of the Rotarians was on that they enjoyed and in which they added very largely to their knowledge of the importance of the occupational and vocational work which is now being developed at the state hospital here and at some of the other state institutions.

**News Notes.**  
Mr. and Mrs. John Darndecker and little daughter of Edwardsville arrived Friday for a short visit at the home of Mr. and Mrs. John Cody.

Miss Ruth Morris of Roodhouse is a guest at the home of Mr. and Mrs. John Kinz, having come to attend the commencement exercises Friday evening.

Miss Loretta Coultas arrived home Tuesday night from Washington university in St. Louis.  
John Furry is visiting his parents, Mr. and Mrs. Harry Furry at Merritt, after spending the past 11 months in Omaha. Mr. Furry is in the employ of the Western Electric Co., and for the past two years has been engaged in the installation of an all-mechanical telephone exchange there.  
The installation cost about two and a half million dollars and contracts have already been let for the installation of similar exchanges in a dozen other large cities. The all-mechanical system works somewhat on the principle of the automatic phone and does away with the necessity for operators.

**WITH THE SICK**  
Frances Willner, son of Mr. and Mrs. Otto Willner was taken to Our Savior's hospital yesterday and operated on. He is doing nicely.  
Mrs. W. H. DeMotte, who was taken to Passavant hospital about two weeks since, because of injuries resulting from a fall, is now seriously ill.  
Mrs. Ella C. Bradish of West College avenue left today for several weeks' visit in western points.

ROTARIANS DR. HILL'S GUESTS YESTERDAY

Were Given Opportunity to Inspect Occupational and Vocational Work—Hospital Is an Asset to Jacksonville.

Rotarians were guests of Dr. E. L. Hill at Jacksonville State hospital at luncheon Friday. The luncheon for which generous preparations had been made was served in Amusement hall. As the courses progressed a musical and vaudeville entertainment was given, not only for the entertainment of the visitors but to show them what can be done in this line by patients of the institution.

Before this part of the program Rotarians joined in mass singing under the leadership of Miss Nelle Self, who is instructor in vocal music at the hospital. After the roll call by Secretary Kopperl some minor matters of business were given attention and new members of the club were introduced. J. H. Dial, Elmer Snyder and Len G. Magill. Then three cheers were given for Dr. Hill as an expression of appreciation of the Rotarians for excellent luncheon entertainment program. Then Dr. Hill made a brief statement, giving the figures to show what the location of the hospital here means to Jacksonville in a financial way.

Possibly the most important fact he mentioned was with reference to the out of town visitors during the past year. The register shows that the number of visitors was 9,350. The coming of so many people to Jacksonville means something in the way of financial expenditure and then there is the further advantage in that the opportunity is offered of interesting some of these people in Jacksonville and suggesting to them that this is an excellent place to live.

Some Hospital Figures.

Some of the figures Dr. Hill give are as follows:  
Amount paid out by the institution, including payroll and distributed among firms in Jacksonville, \$273,096.  
Amount paid by the institution direct to firms in Jacksonville, \$45,096.  
Average paid monthly by the institution to local firms, \$3,785.  
Average yearly payroll, \$228,000.  
Average monthly payroll, \$19,000.  
The average amount paid out monthly by the institution and the employees to citizens in Jacksonville, \$22,758. This means an expenditure of nearly \$1,000 for each working day.

After presenting these facts Dr. Hill referred briefly to what has been attempted in occupational and vocational training. The visitors were taken in groups and escorted thru various departments, including kitchen, sewing room, tailor shop, vocational building, federal department of training and occupational centers. Then some work was done in calisthenics on the lawn and some of the visitors remained for the baseball game. They were also taken to show how the occupational or vocational work is being done. Practically all of the work of this kind now being done at the institution was developed under the superintendency of Dr. Hill.
